

In this Practice Group Rome is to be the capital of Europe!

One of our topics is the EU-USA free trade agreement which can result in radical changes concerning the economic development of the two continents, therefore having an impact on our lives and business opportunities as well. What are these opportunities? Come and find out about them!

We will also prove that we, the members of GGI – and our clients – can influence Europe, the work of the European Commission, and even the decisions of the European Parliament. From now on, as GGI members, we have a means of sending our messages to the decision-makers of Europe, faster and more easily than our competitors can.

You can learn about the rest in Rome!

Looking forward to seeing you there:

Dr. Laszlo Tunyogi

Director of Business Development
GGI Geneva Group International
International Head Office
Schaffhauserstrasse 550
