

GGI CONFERENCES GMBH

AGENDA
GGI Real Estate Practice Group

The practice group will be informed about the participation of 6 practice group member firms in the MIPIM 2011 in March this year in Cannes, one of the largest Real Estate fairs in the world. It will be discussed whether and in the affirmative how the practice group will take part in the MIPIM 2012.

Another topic will be how aspects of sustainability have to be taken into account when executing a (legal) due diligence prior to the acquisition of a building. We are the consequences for the (share) purchase contract? What is the impact and significance of certificates like the English BREEAM, the American LEED, the French HQE of the German DGNB?
