a) **Best of Munich by bike**

A guided bike tour is one of the best ways to discover a city. After a 15 min. introduction to Munich history in general and historical buildings at the meeting point Marienplatz, the bike tour commences. The tour covers highlights of the Bavarian capital like the old town, national theater, Odensplatz or the English garden. Afterwards, you will find some time to discover one of the three art galleries (Pinakotheken) in Schwabing. Discover the most famous portraits in the old art gallery, explore classicism in the new art gallery or join modern Art, high-end architecture and style in the modern art gallery. The choice is yours!

b) **BMW World and Olympic Park**

Located adjacent to the Olympic Park, you will find the impressive BMW World, which is a multi-functional customer experience and exhibition facility of the BMW Group. The BMW World is used as a setting for exhibitions on the BMW brand or BMW products, as well as for events from the fields of economics, politics, society, arts and culture.

A comfortable motor coach will pick you up from your hotel in Munich in the afternoon. During an exclusive guided tour, you will get an insight into the architecture of BMW World, the automobile delivery, its behind-the-scenes logistics and the brand experience.

Afterwards you will be guided through the highlights of the Olympic park where the Olympic summer games took place in 1972.

c) **A Taste of Munich**

Munich is jammed with thriving culture, be it the local food like pretzels and beer or its stunning majestic buildings full of pomp and history. Both are well known all over the world and therefore today we will offer you an insight into all sides of Bavarian culture. Taste it!

During a guided city tour, we will cover all important sights of Munich located in the charming old town. However, focus of the tour is the local food.
